

THEORY of CHANGE

New Cognito –) Rehabilitation Project of Telecommunication Infrastructures (PRIT

What do we invest into the project?	What are we doing to bring about change?	What will change in the short term?	What are the wider benefits we work to achieve?	What is our purpose / long term change?
Inputs	Activities	Outputs	Outcomes	Impact
Design and engineering	Geographic assessment of intervention areas	Entire country connected by telecommunication routes using microwave technology	Easier, accessible and better quality multimedia communications between all the provinces of the country	Promote the development of education, culture and economy of the whole country, in a more inclusive way, through the greater access to new information and communication technologies
Building equipment and materials	Construction of telecommunication transmission lines and sites integrating the basic network of Angola Telecom	Remote areas with first telecommunication connections	Reduced isolation of populations in remote areas	
Hardware and software	Installation of solar-powered microwave technology to enable broadband voice, data, internet and video communication	Increased access of populations to broadband voice, data, internet and video communication, including digital television	Increased opportunities for social, learning, cultural and leisure activities for a broader part of the population	
Know-how and expertise	Training of Angola Telecom staff for equipment operation and maintenance	Better international IT connections	Increased business opportunities and economic growth	
Highly trained staff	Connection to Zambia and Democratic Republic of Congo's networks	Improved network efficiency for speed of installation and lower operation costs	Higher efficiency and quality of public services	
Training capacity	Equipment of schools with IT facilities		Improvement of teaching quality	
Logistics services				
Beneficiaries	Stakeholders			
Telecommunications users: individuals, households, businesses, public institutions	Angolan Central and Local Government (Ministry of Telecommunications and IT, Provincial Governments, Municipal Administrations Angola Telecom Telecommunications companies Schools, public institutions, private businesses, end users
